

X Series X1 Phone system for small business

Cloud phone systems

Cloud-based business phone systems use the internet to make voice calls, send instant messages, and host audio or video conferences from any computer or smartphone.

If you like saving time and money, sounding professional, and connecting with customers, there's a good chance that a cloud phone system is a great fit for you and your business.

What is X Series X1 ?

X Series X1 is a highly secure, robust and easy-to-use cloud phone system. It's ideal for any small or emerging business and includes essential communication features such as auto-attendant, call handling, voicemail, conferencing, recording and reporting.

It's easy to set up and there's no hardware to install or maintain. All you need to get started is a good internet connection. X Series X1 works with IP phones, desktop PCs, or smartphones connected over broadband, mobile, or Wi-Fi.

As your business grows and communication needs change, you can manage your users whether you're at home, in the office or on the move.

Benefits:

Save time and money

X Series X1 doesn't require a large investment and is easy to set up and use.

Impress your customers

Never miss another call and tailor the way calls are answered to maximise your responsiveness.

Flexible working

Use our desktop or mobile apps to make calls, hold meetings or send messages from wherever you are.

Make quick changes

The intuitive online portal lets you add users, adjust features and check usage.

Serve customers faster

The all-in-one capabilities of X Series X1 system enable you to spend more time serving customers and not managing your communications.

X Series X1 helps you serve customers better

X Series X1 gives your business more ways to connect with customers without the overheads and location headaches of managing a traditional phone system. It includes all the capabilities that an emerging small business needs to outsmart its more established competitors. Moving your calls and phone numbers to X-Series X1 is simple and as your business flourishes you can add further features on a user-by-user basis.

X-Series X1 includes:

35+ features for a low monthly price **from £12** per user per month
